

BAO Base Station Omni Antenna

BAO antenna have been designed with an E-plane radiation pattern with null fill, shaped to provide even signal strength throughout the coverage area.

The dipole assembly features high quality brass alloy radiating elements enclosed in a fiberglass weatherproof shroud.

The antenna has an aluminum support tube and top cap, The complete assembly is at DC ground for lighting.

Part No.	BAO2400-8N
Frequency range	2400~2500MHz
Bandwidth	100MHz
Gain	8dBi
VSWR	≤1.5:1
Polarization	Vertical
Horizontal Beamwidth	360°
Vertical Beamwidth	15°
Impedance	50Ω
Max Input Power	50W
Connector	N
Size	Ø20 x840mm

* Please specify frequency band when ordering

Eyecom company policy is one of continuing improvement, therefore we reserve the right to change this specification without notice
